TRIATHLON AAP NOMINATION CRITERIA

For nominations for the 2024 Athlete Assistance Program carding cycle
(Financially supported by Sport Canada)

A. INTRODUCTION

The purpose of this document is to outline the qualification and selection procedures (the “Selection Process”) that will be used by Triathlon Canada to select athletes to be nominated for Sport Canada’s Athlete Assistance Program (AAP).

The objective of the AAP is to identify and support Canadian athletes who have demonstrated the potential to achieve a top eight (8) result at the Olympics and World Championships. Sport Canada evaluates the number of athletes that will be supported for each sport and issues “cards” under the AAP program. The AAP is commonly referred to as the “carding” program hence the term “carded” for AAP supported athletes.

B. POLICY DETAILS

Sport Canada determines the card quotas for eligible NSOs (National Sport Organizations) and sport disciplines. Each eligible sport discipline is allotted a certain number of senior cards with a corresponding monetary amount. The annual allocation for Triathlon Canada is currently 6 senior cards, the equivalent of \$127,080. Sport Canada regularly reviews its allocation of cards; this quota is therefore subject to change.

Demonstrated performance is the primary requirement of the carding process. International and/or domestic results will be used to evaluate performance and determine eligibility under the carding criteria as collaboratively developed and agreed to by Sport Canada and Triathlon Canada.

DEFINITIONS

Carding Cycle refers to the period January 1st to December 31st.

Current Carding Cycle refers to the period January 1st of the current year and ending December 31st of the current year.

A Card is a general term for several types of Cards that exist:

- Senior International Card (SR1/SR2)
- Senior National Card (SR)
- Senior Card Injury/Illness (SRI)
- Development Card (D)
- Development Card Injury/Illness (DI)

- 6.1 A carded athlete, who at the end of the carding cycle has not achieved the standard required for the renewal of carding status because of strictly health related reasons, may be considered for re-

nomination for the upcoming year. In this circumstance, the athlete may make written application for an injury/illness card to the High-Performance Director, supported by a medical certificate, no later than five (5) calendar days after the conclusion of the World Triathlon Championship Finals of the current year as outlined in 1.2 above in order to be considered for selection.

6.2 The basic philosophy for selecting an athlete by granting an injury / illness /pregnancy request is that all things being equal, the athlete nominated has clearly demonstrated superior performances in previous competition to other athletes being considered for AAP nomination.

- An injury / illness / pregnancy request is considered as the last means by which an athlete can earn selection and is intended to provide for exceptional circumstances outside the normal selection criteria rather than being part of the normal means by which an athlete can earn selection.

6.3 The athlete will be considered for nomination for an injury/illness card at the discretion of the High-Performance Director in consultation with the High-Performance Advisory Committee's, subject to the following conditions:

- In the view of the High-Performance Director in consultation of the High-Performance Advisory Committee, the athlete has made reasonable efforts, through rehabilitation and training, to return to full high-performance training and competition as soon as possible after acquiring the injury or illness. Despite these reasonable efforts, the athlete failed to meet the selection criteria as outlined in this Selection Criteria document.
- A qualified sport medicine physician, approved by Triathlon Canada, provides a written report to the High-Performance Director indicating: (i) the scope of the injury, (ii) the rehabilitation required, (iii) the normal recovery term, and (iv) the prognosis of a full recovery by the athlete (the "Physician's Report"). The Physician's Report must indicate to the High-Performance Director that the athlete will be ready to compete and achieve equal or superior performances to those achieved by the athlete prior to the athlete's injury by no later than five (5) calendar days after the conclusion of the World Triathlon Championship Finals of the current year as outlined in 1.2 above. Triathlon Canada's High-Performance Director will review the Physician's Report and this individual may obtain a peer-reviewed evaluation of the applicant's information and readiness to return to full-time training and competition.

6.4 In the event that an athlete is nominated to receive Sport Canada AAP support on the basis of a successful injury/illness/pregnancy request they will be required to prove recovery, both from a medical perspective and also a performance perspective on or before March 15th.

The determination of what performance benchmarks, and/or health indicators will be utilized to constitute recovery will be made by the Triathlon Canada medical team, coaching staff and High-Performance Director, and will be communicated to the individual athlete and their coach before January 15th. These performance benchmarks, and/or health indicators will be based upon assessing the athlete's ability to perform at the same performance level that earned them selection to Sport Canada AAP support.

6.5 If an athlete is subsequently deemed medically unfit and/or is unable to meet the required performance benchmarks on or before March 15th, their nomination will be withdrawn by Triathlon

Canada for the remaining months of carding cycle.

- 6.6 The request must be made in writing, signed by the personal coach, stating the circumstances with supporting evidence faxed or mailed to the Triathlon Canada office. Injury requests must include a medical certificate that indicates the type of injury, severity and estimated recovery time. Triathlon Canada has the right to seek a second medical opinion.
- 6.7 The Triathlon Canada High-Performance Director will accept or reject all requests and deliver the decision in writing within two weeks of receiving the request.

Athletes living outside Canada for athletic or academic purposes must demonstrate, to the satisfaction of Sport Canada, that appropriate training programs are in place and are being monitored by their NSO. Athletes who have been living full-time outside Canada for more than two successive years will not normally be considered eligible for AAP benefits, unless these athletes are competing within the Canadian sport system and representing Canada at international competition.

APPENDIX B TRIATHLON CANADA DEPTH OF FIELD AND QUALITY OF FIELD EVALUATION PROCESS

The purpose of this document is to outline the process that Triathlon Canada will use to determine the Depth of Field (DOF) and Quality of Field (QOF) of an event, as well as how both will be used to evaluate athlete performance. DOF will be used to evaluate an event as a whole, and an athlete’s performance will be evaluated relative to the QOF.

Triathlon Canada is aware that events (especially at the Continental Cup and World Cups) vary greatly in terms of competitiveness. The objective of using DOF and QOF is to ensure that athletes, and their coaches, can objectively assess their performances and progression through Triathlon Canada’s Podium Pathway. In doing so, they can provide the necessary feedback and make the appropriate shifts to their planning to maximize performance.

Additionally, utilizing DOF and QOF, Triathlon Canada can continue to ensure the top performing athletes are prioritized for selection/nomination through objective comparison of performances. This is in alignment with Triathlon Canada’s High-Performance mission.

TRIATHLON CANADA’S AUTHORITY FOR DECISIONS

All matters relating to the selection of athletes for World Triathlon competition are the sole authority of Triathlon Canada.

DEPTH OF FIELD

Depth of field is defined as the overall competitiveness of an event. Triathlon Canada will determine and publish the DOF within the week prior to the event start date. The process is as follows.

- Average WORLD TRIATHLON World Ranking of the Top 8 Women and Top 10 men on the start list of the event

Note: World Triathlon World Ranking points range between women is significantly larger than men. Additionally, the total number of women in World Triathlon races is smaller than men. Therefore, Top 10 will be used for men and Top 8 for women.

QUALITY OF FIELD

Quality of field is defined as the relative competitiveness of the participants in an event. Whereas DOF uses the absolute World Triathlon World Ranking, QOF takes into consideration the actual World Triathlon World Ranking Points and the difference between the absolute rankings.

Example 2

Event	Program	DOF (Rank AVG)	QOF (Points AVG)	Rank (Count)	Rank (Range)	Top-3 (Rank Avg)
2019 AJ Bell World Triathlon Leeds	Elite Men	5.5	5171.026	10	9	2
2019 AJ Bell World Triathlon Leeds	Elite Women	5.875	4980.40125	8	11	2
2019 Huatulco World Triathlon World Cup	Elite Men	38.9	2344.74	10	42	20.3333333
2019 Huatulco World Triathlon World Cup	Elite Women	33	2755.4775	8	45	11.6666667

For an event such as the Olympic Games or World Triathlon Championship Final, the DOF and QOF are reflective of the most competitive event. This is due to the understanding that the Top 8/10 athletes will be in attendance. Finish position at those events is an accurate representation of the highest level of competition. However, the competition level of events below the World Triathlon Championship Final and Olympic games is less consistent.

For example, two events can have the same DOF but not necessarily the same QOF. This is where QOF will be one tool to evaluate athlete performance relative to the athlete pool in the event.

EVALUATION OF ATHLETE PERFORMANCE

To further improve the accuracy of assessing athlete performance, DOF and QOF will be utilized in conjunction with Triathlon Canada’s Gold Medal Profile and race analysis.

DOF will be used to determine the competitive level of an event and if an athlete achieving selection criteria meets the performance standards. It can also be used to compare two performances with the same result but in different events.

Example 3: Use of DOF

4th at Huatulco WC vs 4th at Banyoles WC

Event	Program	DOF (Rank AVG)	QOF (Points AVG)	Rank (Count)	Rank (Range)	Top-3 (Rank Avg)
2019 Huatulco World Triathlon World Cup	Elite Men	38.9	2344.74	10	42	20.3333333
2019 Banyoles World Triathlon World Cup	Elite Men	15.3	3917.7	10	28	3.3333333

Banyoles WC would be considered the higher-level event and thus the result in Banyoles is prioritized.

QOF will be used in comparing differing athlete results between two or more races.

Example 4: Use of QOF

8th at Banyoles WC vs 6th at Huatulco WC

Event	Program	DOF (Rank AVG)	QOF (Points AVG)	Rank (Count)	Rank (Range)	Top-3 (Rank Avg)
2019 Huatulco World Triathlon World Cup	Elite Men	38.9	2344.74	10	42	20.3333333
2019 Banyoles World Triathlon World Cup	Elite Men	15.3	3917.7	10	28	3.333333

QOF is the average of the Top 10 athletes starting in the event (the final results of the athlete is highlighted)

Rank	Banyoles World Triathlon World Cup World Ranking Points	Huatulco World Triathlon World Cup World Ranking Points
1	6333.16	3513.06
2	6231.99	2765.62
3	4584.55	2663.22
4	4134.84	2431.39
5	3790.55	2181.9
6	3099.76	2160.73
7	2878.81	2093.05
8	2886.09	1966.62
9	2557.97	1842.62
10	2494.64	1829.19

Though the athlete achieved a higher placing in Huatulco (4th), using the World Triathlon World Ranking points as an indicator of athlete performance level, an athlete achieving 8th in Banyoles is in fact performing at a higher level by comparing the relative World Triathlon World Ranking points of the athlete ranked in that position prior to the race. This evaluation can be done for any result.

Triathlon Canada’s event selection policy outlines the priority criteria and achieving a higher priority criteria is still the primary measure of performance.
